Dear Mr Orr

CIPPENHAM NURSERY SCHOOL AND CHILDREN'S CENTRE

We have just completed the first three months in our new buildings. Staff, parents and children are absolutely delighted with their new surroundings.

We know how much hard work went into the construction of the buildings and would like to congratulate Andy Baker on bringing the project in on time and especially to Jerry Redman and his team who were thoroughly professional, polite and a pleasure to work with. Jerry was particularly skilled at communicating with us over every detail along the way. He also followed up with great speed all teething problems when we first took over the building.

The whole project seemed to run so smoothly. We never imagined that modular buildings could feel so special and your company has done us proud.

Yours sincerely

Jean Pocock
Headteacher
